

ERASMUS IN SZCZECIN

Merve B. Üstün

- I am a master's degree student who was in Szczecin for one semester. It was a very lovely experience for me to be an Erasmus student over there. First of all, Szczecin is a lovely city. The dorm I was staying was very nice. There were lots of greenery and parks around our dorm.

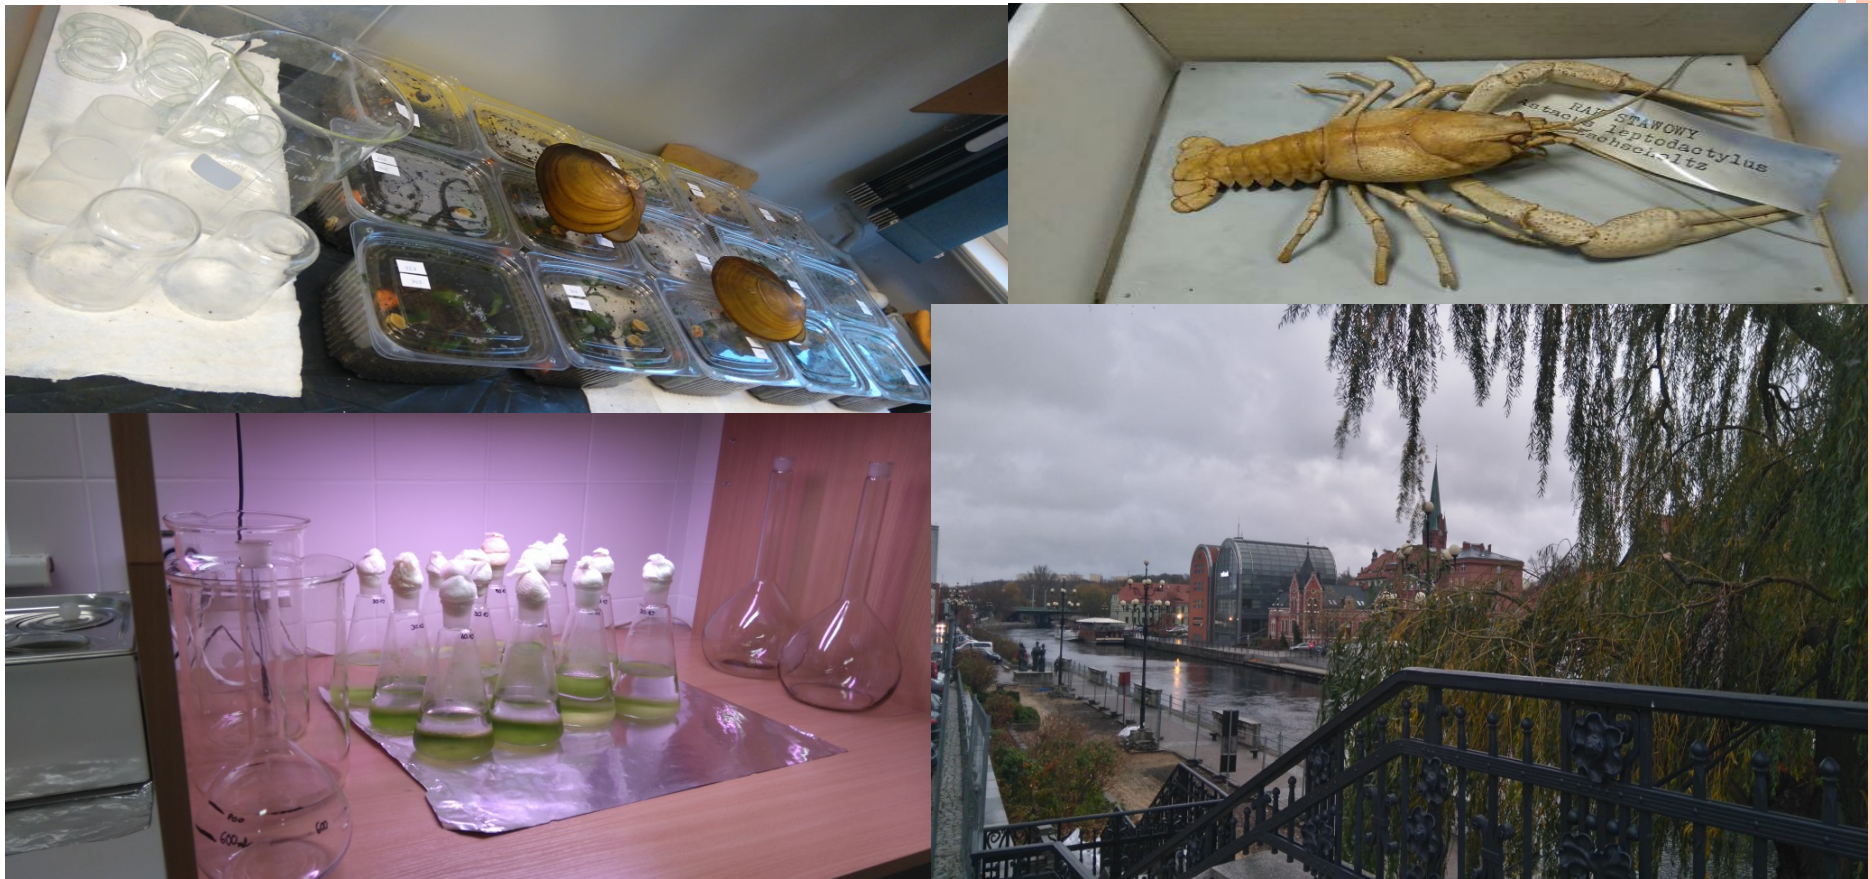

- When I had the time, I was walking around Park Kasprowicza which was very close to the dorm. It's a very peaceful place.

- Besides that, all the academic staff and the students who are dealing with Erasmus students were nice and friendly from the beginning until the end. With ESN people, we travelled some places . I had the opportunity to go lots of places such as, Muzeum Techniki, Baltic Sea, Trzęsacz, and Lighthouse Niechorze and many more.

- The classes were good. Filip and Marlena, who are Phd students, they took care of me and a few friends who are in the same field as me, they took us and we travelled to another university, Kazimierz Wielki University in Bydgoszcz, which was in another city, and they showed us the city, and more importantly we also attended another courses in that university too! It was great!

- In the end, all I can say is, I suggest everyone to go to Szczecin to do Erasmus!
